Radian ESG Tear Sheets

The following tear sheets contain disclosure of relevant metrics to Radian's businesses, as well as those included in the Sustainability Accounting Standards Board (SASB) standards for the Insurance sector and the United Nations Sustainable Development Goals (UN SDGs). We are committed to supporting environmental, social and governance (ESG) initiatives that are integrated into our strategy and culture and continue to drive our corporate responsibility. We believe these initiatives support our employees, customers, local communities and other stakeholders. This 2020 report, which primarily reflects 2019 data, is the second year that Radian is disclosing data using the SASB standards and UN SDGs.

About Us

- Radian is ensuring the American dream of homeownership responsibly and sustainably through products and services that include industry-leading mortgage insurance and a comprehensive suite of mortgage, risk, real estate, and title services. We provide mortgage insurance and products and services to the real estate and mortgage finance industries through our two business segments—Mortgage Insurance and Services.
- Our Mortgage Insurance segment provides credit-related insurance coverage, principally through private mortgage insurance, as well as other credit risk management solutions to mortgage lending institutions and mortgage credit investors. Our Services segment is primarily a fee-for-service business that offers a broad array of mortgage, real estate and title services to market participants across the mortgage and real estate value chain. We are powered by technology, informed by data and driven to deliver new and better ways to transact and manage risk.
- Radian Group serves as the holding company for our insurance and other subsidiaries and does not have any operations of its own.

Radian's ESG Program Objectives

- Radian's ESG program is focused on supporting the company's commitment to environmental, health and safety, corporate social responsibility, corporate governance, sustainability and other public policy matters relevant to the company and its operations. This program aligns with our company-wide commitments to continue to be responsible corporate citizens with a positive impact in the community and with the people we serve. Our corporate responsibility initiatives and commitments help Radian deliver the brand promise, innovate for the future, create shareholder value, prioritize people, do what's right and partner to win.

Corporate Responsibility Metrics – Environmental

#	ASPECT	COMMENTARY	SASB CODE	SDG
1	Description of approach to incorporation of environmental risks into (1) the underwriting process for individual contracts and (2) the management of firm-level risks and capital adequacy	See Page 7	FN-IN-450a.3	
2	Discussion of products and/or product features that incentivize health, safety, and/or environmentally responsible actions and/or behaviors	Radian participates in Fannie Mae and Freddie Mac credit risk transfer programs. In participating in these transactions, we assume incremental risk (beyond that which we typically cover in our traditional mortgage insurance business) associated with the risk of defaults caused by physical damage, including natural disasters such as hurricanes and wildfires, which is not covered by the underlying primary mortgage insurance. We regularly evaluate this risk, including the geographic diversity of the loans included in these transactions and our remote risk position, in assessing our participation in these transactions.	FN-IN-410b.2	
3	Description of actions to conserve natural resources through reductions in water, waste and energy efficient programs	Radian engages in sustainability activities generally accepted across corporate facilities. This includes the collection of recyclables, installation of LED lighting, the purchase of energy-conserving appliances, and the use of low water consumption plumbing fixtures. In addition, the company is evaluating enterprise-wide changes regarding waste, along with water and energy usage. These may include switching plastic straws and eating utensils with biodegradable options and recycling of coffee packets and grounds. The recycling and reuse of building materials (carpet, ceiling tiles and other construction-related items) to which Radian has been committed for some time, will be measured for future reporting in conjunction with other environmental practices.		 

SASB Code FN-IN-450a.3 - Description of approach to incorporation of environmental risks into (1) the underwriting process for individual contracts and (2) the management of firm-level risks and capital adequacy

1) Individual Contracts:

- Mortgage Insurance Underwriting - underwrites to lender's guidelines, which considers environmental risk. Radian's MI Policy generally excludes coverage for any cost or expense related to the repair or remedy of any physical damage to the property. More information may be found on page 19 of [Radian's Master Policy](#).
- GSE Credit Risk Transfer - Radian participates in Fannie Mae and Freddie Mac credit risk transfer programs. In participating in these transactions, we assume incremental risk (beyond that which we typically cover in our traditional mortgage insurance business) associated with the risk of defaults caused by physical damage, including natural disasters such as hurricanes and wildfires, which is not covered by the underlying primary mortgage insurance. We regularly evaluate this risk, including the geographic diversity of the loans included in these transactions and our remote risk position, in assessing our participation in these transactions
- MI Quality Control - monitors Early Payment Defaults, reported defaults related to hurricanes (or other significant natural disasters) separately and monitor them when no longer in default.
- Title - Title insurance does not cover claims resulting from environmental risks, such as hurricanes or other natural disasters, so these are not factored into the underwriting of the title insurance product

2) Management of firm-level risks and capital adequacy:

- IT Disaster Recovery and Business Continuity programs protect Radian properties/personnel against environmental risks. The Enterprise Risk Management (ERM) Council, ERM Executive Steering Committee, Asset Liability (ALCO) and other enterprise-wide committees are used to discuss the various types of risks across the organization. ERM reviews those risks that are determined to be the highest risk to the company and uses a scoring methodology that incorporates both the likelihood and impact of the risk occurring.

Aligning with the Sustainable Development Goals

In 2015, world leaders adopted the 2030 Agenda for Sustainable Development. This agenda included 17 Sustainable Development Goals (SDGs), with 169 targets, to address economic growth, social inclusion and environmental protection. Radian contributes to the SDGs through our business operations and initiatives as outlined below.

Sustainable Development Goal	Radian's support for this goal
 <p>End poverty in all its forms everywhere</p>	<p>Radian works to end poverty and expand property ownership opportunities by partnering with diverse real estate trade associations that promote home ownership and access to financial services for first time home buyers.</p>
 <p>Ensure healthy lives and promote well-being for all at all ages</p>	<p>Radian prioritizes employee wellness especially programs for families, caregivers, and new parents. We ensure employees feel supported through wellness and educational programs available for all employees.</p>
 <p>Achieve gender equality and empower all women and girls</p>	<p>Radian places a substantial focus on increasing representation of women across all levels of our organization.</p>
 <p>Ensure access to affordable, reliable, sustainable and modern energy for all</p>	<p>Radian's initiatives to promote lender efficiency programs and reduce energy consumption through corporation-wide reduction efforts.</p>
 <p>Build resilient infrastructure, promote inclusive and sustainable industrialization and foster innovation</p>	<p>Radian's product and service offerings promote financial wellness, stability and education for homebuyers and Radian strives to expand access to our product offerings to underserved communities.</p>
 <p>Reduce inequality within and among countries</p>	<p>At Radian, our goal is to ensure that our customers feel empowered when buying a home, promoting economic inclusion and financial stability for all people.</p>
 <p>Ensure sustainable consumption and production patterns</p>	<p>Radian is committed to reducing our environmental impact and reporting on our environmental, social and governance programs, initiatives, and strategy annually.</p>
 <p>Promote peaceful and inclusive societies for sustainable development, provide access to justice for all and build effective, accountable and inclusive institutions at all levels</p>	<p>Radian's corporate culture is rooted in transparent and ethical business operations. Our future success depends on our ability to prevent bribery, corruption and discriminations across our business.</p>
