January 14, 2019

Radian Introduces RADAR[®] Rates, a New MI Pricing Option

Radian is pleased to introduce RADAR[®] Rates a more granular MI pricing option available on January 21, 2019, subject to regulatory approval.

RADAR[®] Rates is powered by Radian's proprietary RADAR[®] pricing model to dynamically analyze credit risk inputs, ensuring that each rate quote is fine-tuned to a borrower's individual risk profile and loan attributes.

RADAR[®] Rates provides MI customers with a complementary pricing option to Radian's standard published rate cards. RADAR[®] Rates is available through the company's Radian Rates app, and through most industry pricing engines and loan origination system interfaces.

For more information on RADAR[®] Rates visit www.radian.biz
